

How to Submit Proof Corrections Using Adobe Reader

Using Adobe Reader is the easiest way to submit your proposed amendments for your IGI Global proof. If you don't have Adobe Reader, you can download it for free at <http://get.adobe.com/reader/>. The comment functionality makes it simple for you, the contributor, to mark up the PDF. It also makes it simple for the IGI Global staff to understand exactly what you are requesting to ensure the most flawless end result possible.

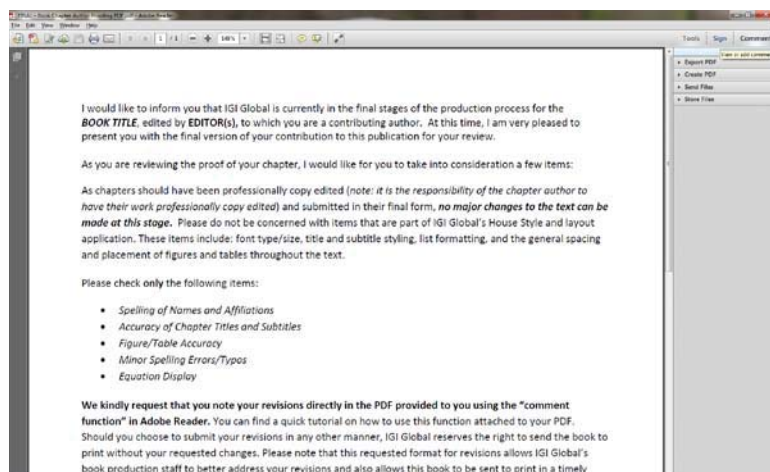

Please note, however, that at this point in the process the only things you should be checking for are:

Spelling of Names and Affiliations, Accuracy of Chapter Titles and Subtitles, Figure/Table Accuracy, Minor Spelling Errors/Typos, Equation Display

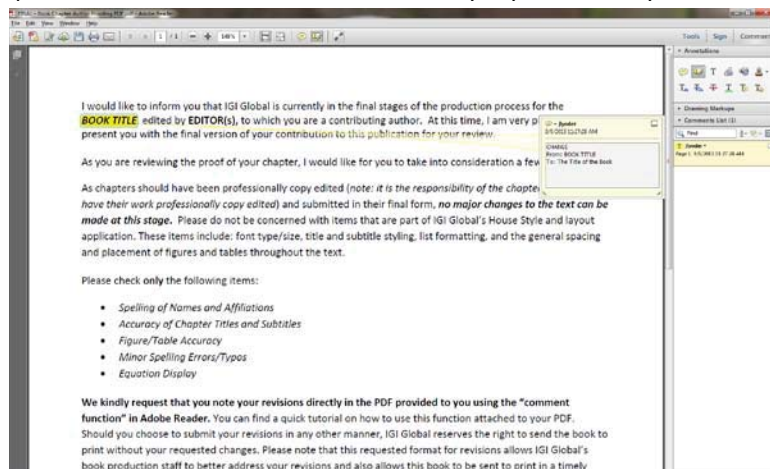

As chapters should have been professionally copy edited and submitted in their final form, please remember that **no major changes to the text can be made at this stage**.

Here is a quick step-by-step guide on using the comment functionality in Adobe Reader to submit your changes.

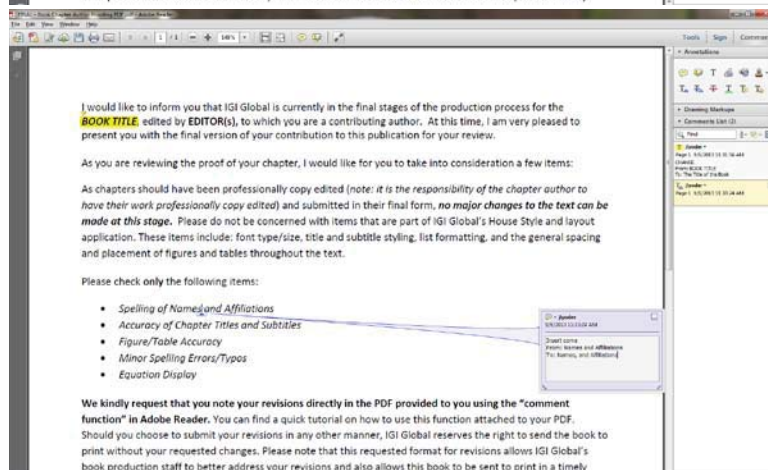

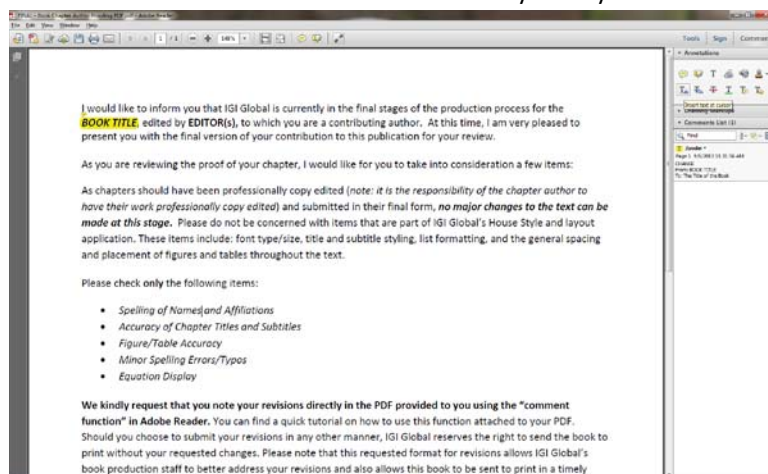

1. Select the **Comment** bar at the top of page to View or Add Comments. This will open the **Annotations** toolbar.

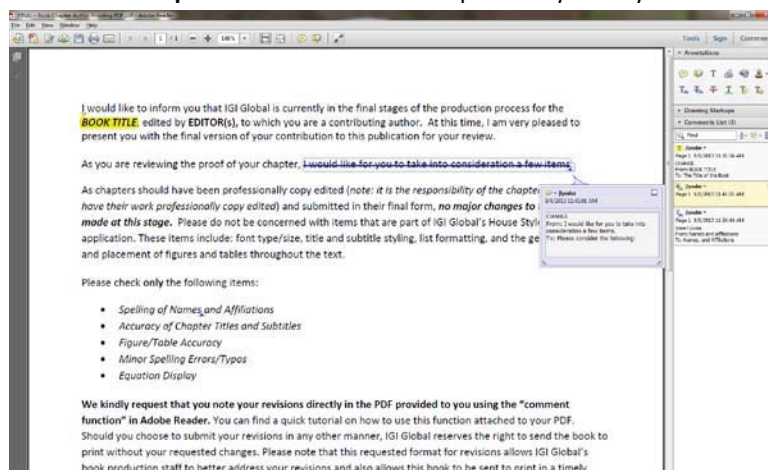

2. To note text that needs to be altered, like a subtitle or your affiliation, you may use the **Highlight Text** tool. Once the text is highlighted, right-click on the highlighted text and add your comment. Please be specific, and include what the text currently says and what you would like it to be changed to.

3. If you would like text inserted, like a missing coma or punctuation mark, please use the **Insert Text at Cursor** tool. Please make sure to include exactly what you want inserted in the comment box.

4. If you would like text removed, such as an erroneous duplicate word or punctuation mark, please use the **Add Note to Replace Text** tool and state specifically what you would like removed.

Global Perspectives on Risk Management and Accounting in the Public Sector

Augusta da Conceição Santos Ferreira
University of Aveiro, Portugal

Graça Maria do Carmo Azevedo
