

- P2251 An investigation into the comparison of three different maximal mouth pressure devices in healthy participants  
L. O'Reilly, B. Cooper, J. Hunt (Birmingham, United Kingdom)
- P2252 Glasgow outreach spirometry service: who should be referred for pulmonary rehabilitation?  
R. Carter, V. Ron (Glasgow, United Kingdom)
- P2253 A spirometer or stethoscope as a screening tool for airway obstruction?  
M. P. Swanney, J. D. Stanton, P. T. Kelly, C. O'Dea, L. Beckert, C. M. Frampton (Christchurch, New Zealand)
- P2254 The diagnostics of sleep apnoea by analysis of breath sounds  
N. V. Ulyanychev, V. F. Ulyanycheva, V. P. Kolosov, J. M. Perelman (Blagoveschensk, Russian Federation)
- P2255 Evaluation of the central airway stenosis using impulse oscillatory system  
H. Handa, M. Mineshita, H. Kida, F. Ishikawa, H. Nishine, M. Nakamura, M. Oshige, A. Ishida, J. Saji, Y. Fujita, S. Nobuyama, T. Inoue, T. Shirakawa, T. Miyazawa (Kawasaki, Japan)
- P2256 Breath sound analysis to diagnose obstructive syndromes  
T. A. Cernomaz, C. Cojocar, T. Mihaescu (Iasi, Romania)
- P2257 Find the missing millions - spirometry in Liverpool  
J. Coulson, S. Boote, D. Russell, T. Lethbridge (Liverpool, London, United Kingdom)
- P2258 Effect of training biometrists on the quality of performance of forced spirometry manoeuvre  
F. W. J. M. van Schaijk, M. J. Geerts, I. Steenbruggen (Heerenveen, Zwolle, The Netherlands)
- P2259 The awake person makes a breath before will feel breathlessness  
M. Pogodin, A. Dimitrienko (St-Petersburg, Russian Federation)
- P2260 Volume response are more significant and important than flow response to bronchodilator in patients with COPD  
J. P. Zheng, M. Jiang, Y. Gao, J. Y. An, W. T. Liu, X. X. Yu (Guangzhou, China)
- P2261 Review of open access flight assessment service at a district general hospital in the UK  
L. Grimes, N. Chapman, R. P. Convery, A. John (Craigavon, United Kingdom)
- P2262 Bronchial provocation tests with dry powder mannitol *versus* histamine: value for clinical practice and relation to eNO  
B. Oppedijk, J. Fijn, C. Melissant, I. van der Lee (Hoofddorp, The Netherlands)
- P2263 Clinical audit of SPT's in a paediatric respiratory laboratory, CUH, Dublin  
A. Doggett, D. L. Moran, N. Smith, D. Slattery (Dublin, Ireland)
- P2264 Bronchodilator efficacy and bronchial responsiveness in patients with bronchodilator-responsive chronic cough  
K. Nobata, H. Asanoi (Imizu, Japan)
- P2265 Computer assessment of algorithms for estimating alveolar pressure from a mouth pressure-time transient during airflow interruption  
P. D. Bridge, D. Wertheim, A. Jackson, P. Seddon (Cambridge, Kingston, Brighton, United Kingdom; Boston, United States of America)
- P2266 Does use of the hyperventilation provocation test alter management of patients with unexplained breathlessness?  
C. Houghton, S. Bokhari, R. Chadwick, L. French, G. Ng Man Kwong (Bury, United Kingdom)

**HALL A-17**

**Session 205**

**12:50-14:40**

**Thematic Poster Session: Respiratory physiotherapy assessment**

**Chairs: R. Garrod (London, United Kingdom), F. Pitta (Londrina, Brazil)**

- P2267 Do site or therapist affect drop out rate in pulmonary rehabilitation (PR)?  
E. Ward, F. Dyer, J. Bott (Chertsey, United Kingdom)
- P2268 The use of computer aided lung sound analysis to characterise lung sounds in a healthy population  
A. Bruton, A. Marques, K. Mahoney, K. Kolstoe, R. Moss, S. Thomas, Z. Beverley (Southampton, United Kingdom; Aveiro, Portugal)
- P2269 Inter-individual variability of added lung sounds in a healthy population  
A. Marques, A. Bruton, K. Mahoney, K. Kolstoe, R. Moss, S. Thomas, Z. Beverley (Aveiro, Portugal; Southampton, United Kingdom)
- P2270 Maximal voluntary ventilation: determination of respiratory pressure developed in healthy subjects  
G. Fregonezi, I. Azevedo, R. Gurgel, F. Gadelha Severino, A. Dornelas de Andrade, V. Resqueti (Natal, Recife, Brazil)
- P2271 Maximal voluntary ventilation: dynamic compliance and determinants in healthy subjects  
G. Fregonezi, I. Azevedo, T. Lucena Araujo, R. Gurgel, F. Gadelha Severino, A. Dornelas de Andrade, V. Resqueti (Natal, Recife, Brazil)
- P2272 Reproducibility intra and inter observer of maximal inspiratory volume measurements from breath-stacking (BS) in healthy volunteers  
M. D. G. Rodrigues-Machado, A. Dornelas de Andrade, D. Cunha Brandão, L. Andrade de SáFeitosa, M. Florentino Pessoa, P. Antas Barbosa, L. Alcoforado (Belo Horizonte, Recife, Brazil)
